Safety Drench Shower

Product Code: S2200

Whatever your safety requirements, you can rely on this stainless steel emergency shower. Wall mounted for unparalleled stability, the unit's diminutive proportions keep it out of the way of your workers, while the stainless steel constructions means that it will outlast lesser products several times over. The unit also comes with bright yellow detailing to aid visibility, even in smoky or dusty environments or in emergency situations where the user's eyesight might be compromised.

All it takes to activate this stainless steel wall mounted emergency drench shower is a tug on the low-resistance pull rod. Once activated, the unit will discharge water without interruption thanks to a stay-open ball valve. We take safety seriously here at Safety-Eyewash.co.uk, which is why we've also included a waterproof inspector's tag so that you can undertake weekly safety testing and comply with ANSI Z358.1 guidelines. To read more about the guidelines, visit our guide to ANSI regulations.

There are currently no accessories available for this wall mounted stainless steel emergency decontamination shower.

Related products

We also sell a wall mounted safety shower with a bright yellow ABS plastic head for even greater visibility. In addition to our wall mounted safety shower, we also sell freestanding safety showers and ceiling mounted safety showers which can be installed close to particularly at-risk areas of your workplace.

Of course, we don't only sell safety showers. We're renowned for our comprehensive range of safety eye wash stations, and we also sell combined safety shower and eyewash units.
