

## Emergency Drench Shower

Product Code: S1200

This wall mounted safety shower is designed to be mounted horizontally, which gives it a high degree of stability, while the compact design means that it won't get in the way of your workforce. The shower head is made from durable ABS plastic in a bright yellow finish to ensure that the unit is easy to find in an emergency.

This wall mounted safety decontamination shower can be activated within seconds thanks to the easy pull operation rod, and the stay-open ball valve ensures that the water keeps flowing for as long as necessary. To help you meet the stringent safety guidelines that govern emergency shower units, we've included a waterproof weekly inspection tag for the purposes of safety testing. To find out what else you need to do to become compliant, [visit our guide to ANSI Z358.1 regulations](#).
