

Combined Safety Shower & Eye Wash Station

Product Code: S1320

Our combined safety shower and eye wash is a space-saving and cost-efficient workplace safety solution. The unit comprises a freestanding galvanised steel column shower with ABS plastic shower head and an ABS plastic eye wash station, which means it can deal with even the gravest emergency situations.

Galvanised steel is renowned for its toughness, while ABS plastic offers unbeatable durability at an unbeatable price. Each component is finished in high-visibility yellow so that the unit can be swiftly located during a crisis. The shower and emergency eye wash can be operated individually or simultaneously and are activated by an easy-pull stainless steel rod and a low-resistance push panel, respectively.

This combination decontamination shower and eye wash comes with a waterproof inspection tag to help you carry out the weekly functional testing that is required by the ANSI. In addition to testing, there are other obligations which you must carry out in order to remain compliant; [find out more by visiting our guide to ANSI Z358.1 regulations](#).
