

Hand & Foot Operated Emergency Eye Wash Fountains

Product Code: S0320-HFC

This safety eye wash fountain comes with both hand and foot operation to ensure that it can be activated even when the user has sustained injuries to their hands. Constructed from hardwearing galvanised steel and ABS plastic, the entire unit is finished in bright yellow to aid visibility.

The pedestal design of this hand and foot operated safety eye wash station means that it can be installed almost anywhere - unlike a wall mounted unit, it can be fitted in close proximity to the most dangerous areas of your workplace to help reduce the time it takes to reach the unit in an emergency. Each unit also comes with a built-in inspection tag to facilitate regular testing and maintenance.

Delivery

From stock 1 to 2 working days delivery time

Orders placed before 11.30am will be despatched for delivery next working day, or two working days if ordered after 11.30am

What is ANSI compliance?

This product is fully compliant with ANSI Z358.1, a set of regulations from the American National Standards Institute which determine how safety eye wash products are manufactured. In order to achieve full compliance, you also have a duty to ensure that the product is installed, maintained and inspected in the proper manner. [Visit our guide to ANSI regulations to find out more.](#)
